

Gordon Mackie Associates Ltd  
is a waste management consultancy  
that is widely known throughout the  
UK for providing specialist advice  
relating to the collection, recycling  
and recovery of municipal waste for  
local authorities on a national level.

Gordon Mackie Associates

Now in our sixteenth year of trading, we are looking to appoint suitably qualified candidates as part of our sustained development in the local government sector. Current positions are available at our Head Office in Hyde, approximately 7 miles east of Manchester city centre. We would welcome interest from candidates who may be based close to this location or are looking to relocate.

We offer expertise to clients in a number of key waste management areas but typically specialise in issues surrounding municipal waste. Recent projects have included waste strategies, feasibility studies, tender evaluations and best value reviews but could also entail a number of bespoke subject matters. As we continue to grow, so too will our overall technical capability and this means that we can continue to offer our clients a truly worthwhile and valued service.

---

## Consultant

**Term:** Permanent

**Location:** Hyde, east Manchester

**Salary:** Up to £28,000 per annum plus benefits

Your role as a consultant will be rather varied due to the nature of the project work we become involved in. Your ability to adapt to change according to the needs of our clients will be paramount to the success of this role. You'll ideally need to have a degree in waste management or environmental studies in addition to some experience within the waste management industry. You will also need to possess the ability to communicate with clients throughout all levels of the communication hierarchy and be capable of presenting information and openly discussing options with them surrounding project work.

You will be working both individually and as part of a team throughout many areas of your role, and you will be expected to work to pre-defined timescales and budgets. Successful applicants will also be required to visit clients from time to time and sometimes stay away from home in order to be local to clients' offices whilst project work is being carried out.

## Continued...

In return, we offer tremendous career prospects with a real opportunity to progress and a competitive salary commensurate with experience. Other benefits include the full support from existing staff members, pension contribution and life insurance.
